NARRATIVES

Female subject saw unidentified airborne phenomenon constituted by large object about the (size of two cop cars) about 80 feet above the ground. The object was slow moving and made a low hum according to the deponent, She indicated a south eastern flight path that circled back and terminated in a north bound direction. She saw the same object the next night and was concerned. She believes it to be an unmanned drone possibly and said it was not aerodynamic and was set up in a symmetrical but segmented arrangement like a toy or hobble drone only 16 feet across and silent. The lights indicted were red green and white but much brighter then she had ever seen a on plane and with a quality of filling the entire area below.

This sergeant secured her information when it was brought to my attention by the village clerk that she had called over the weekend.

Report to be forwarded to MUFON and FAA.

NARRATIVES

**1 TUXEDO RD
TUXEDO PARK, NY 10987**

Caller reports a black SUV (escalade or full size suburban type vehicle) driving past her house, sometimes stopping, on several occasions. About two days ago she saw someone taking a photo or looked like they were taking a photo of the house. Unknown if it is a male or female. Thinks only one person in the vehicle. She has not had any problems with anyone, no idea who would be doing this. No certain day or time of occurrence. Similar incident occurred two years ago. A vehicle NFD would stop, honk horn, leave area. She is not sure if a report was filed. Desk officer advised her to call immediately if vehicle is seen and patrol will be dispatched.

After advising shift that [REDACTED] had mad a 3rd party complaint to [REDACTED] and was left a message concerning a report that police blew off her call about black SUVs in the park taking pictures of her house, the above blotter was generated. Upon investigation it was discovered a vehicle had entered earlier in the month to take pictures for appraisal. Subject [REDACTED] stopped identified and gave business card. Blotter attached.

Officer from day prior failed to research or link reports. With detailed instruction that [REDACTED] would call and why, Officer Ascione still texted Sergeant after shift to advise [REDACTED] called back and to give her a call back. see attachments

Rank: CHF

Officer Role: Main Officer

NARRATIVES

06/28/2021 10:34 -- Conklin, David (957) -- [REDACTED] called me and stated that he was advised by two residents over the weekend that a drone was flying low outside of their residence's. The two residents who notified him were [REDACTED] of Lookout Road and [REDACTED] of West Lake Stable Road. Neither resident called the police department and reported it.

I called [REDACTED] residence and left a message. I also called [REDACTED] residence and spoke to [REDACTED]. She stated that yesterday at approximately 3:00pm, while in her driveway she heard what sounded like a drone flying next to her house on the second floor in front of her windows. She said that she could not see the drone due to the bright sun being in her eyes but she definitely heard it flying around her house. She said that she is familiar with the sound of a drone because her Chimney Sweep contractor has used one at her house in the past to view the chimney.

At this point there is not much we can do without any known witnesses as to who was flying the drone. Officers have been advised to continuously observe for this violation.
