

Exhibit J: Certified Water and Sewer Plant Management

Prepared for: Memorandum to the Village Board of Tuxedo Park **Administration:** Mayor David C. McFadden

Executive finding

The Board unanimously hired VRI Environmental Services to manage both plants beginning June 1, 2022. The Village announcement describes certified personnel, daily presence, maintenance capability, and agency coordination.

Chronology and evidence

Mayor / admin.	Date or period	Event	Significance
McFadden	Spring 2022	Administration considered outside plant-operating firms	Comparative selection process described by McFadden
McFadden	May 18, 2022	Board agenda listed discussion of hiring VRI following the prior month's executive session	Formal Board consideration documented
McFadden	May 31, 2022	Village announced unanimous hiring of VRI Environmental Services to manage both plants	Firm, scope, and Board action documented
McFadden	June 1, 2022	VRI service began	Effective date documented
McFadden	Beginning June 2022	VRI supplied certified managers, operators, mechanics, and technicians; maintained daily presence; interfaced with agencies	Operating and compliance structure documented
McFadden	2022 reporting year	Village water system reported compliance with applicable operating, monitoring, and reporting requirements and no violation of a maximum contaminant level or other water-quality standard	Contemporaneous compliance result; not presented as proof of sole causation
McFadden	December 2022–January 2023	VRI participated in troubleshooting Filter No. 2 with DPW and Westech	Demonstrates technical coordination under the operating model
