

Read into the Record during Public Comments at the 9/17/2026 BOT Meeting

My name is Robin McFadden, and I live at 28 Pepperidge Road.

Mayor, Trustees, and members of the Tuxedo Park community, I respectfully submit the following comments.

Before tonight's continuation of the Board's discussion concerning boathouses, docks, and photoshoots, David and I submitted written questions for your advanced review and inclusion in the official record. We hope you will respond fully and fairly this evening or provide written responses well before any public hearing on this proposal is scheduled.

Our questions address the Board's lack of substantive responses to our prior submissions, the outstanding administrative FOIL records concerning the proposal's origin and factual basis, and the refusal to provide the August 20 meeting recording.

They also address the Police Department's determination that it found no complaint or related police record concerning our boathouse or the photoshoot.

Finally, we ask why this matter continues to be characterized as "renting boathouses" after the Mayor stated that it arose from a photoshoot on our private boathouse dock.

Our questions address the proposal's broader reach and the availability of narrower, objective, impact-based alternatives.

Thank you.
